

Milk and Butter Cow

Bulletin No. 35 of the Experiment Station of Minnesota is on the subject of dairying. Some splendid butter records are recorded there. Their herd consisted of most of the various breeds of cattle in this country. The milk from each cow was weighed and the

that the amount of milk from each cow was learned and the amount of butter made from the milk.

One Jersey Guernsey gave the smallest amount of milk, being 4520 pounds and made, during the year, 225.46 pounds of butter.

One Holstein Friesian cow gave 10,087 pounds of milk and made 274.09 pounds of butter.

Another grade Holstein gave 10,287.20 pounds of milk and made 407.92 pounds of butter.

A Jersey Guernsey gave 6,976.10 pounds of milk and made 366.98 pounds of butter.

One Jersey gave 7,545.30 pounds of milk and made 358.42 pounds of butter.

One Guernsey gave 7,994.30 pounds of milk and made 357.62 pounds of butter.

There were twenty three cows used in this experiment and they all average in milk 6,867.87 pounds and 300.93 pounds of butter.

gave milk was 343.

This shows quite a contrast between the two years in the production of milk and butter and the cows usually kept on the farms of Missouri.

There is probably no one mistake that the farmers are making that equals their loss in keeping the cows they do own. Of course these cows were fed better than the majority of cows on the farms of this state.

Some of the cows above averaged more than 25 pounds of milk for 300 days of the year, and these cows averaged a little over 300 pounds of butter.

We are greatly indebted to these experimental stations for the valuable information which they are spreading before the public.

SCOTT & WILBER
CONTRACTORS OF
STONE and

CEMENT WORK
OF All Kinds.
 Estimates furnished on short notice.
 All work guaranteed. Give us a try.

 —————
 Henry Wootley, formerly of this city, but now of Wescott, Custer Co., S. D., writes: "I am glad to hear that you that starvation is staring us in the face, as this country is drying out again. Our crops will be gone if we do not get rain soon, and I am a quick learner, and the people 'what will we do and where will we go' and you do not know what I feel it throbs over us to think what will be here in this country, and if we do not have rain soon we will be compelled to leave it." The writer of the above has left his home and gone to the west to get a better chance to work on an irrigation ditch. He says further: "We have had a few days of hot winds and the small grain is drying up." And they had ice there two nights last week.
 —————
 "We are always glad to learn of an former Holt county people prospering, and especially so when engaged in a good cause." In a letter from E. S. Deany, who formerly resided near New Point, an Iowa city now part of the Christian church at Hampton, Iowa, we glean the following:

about three years ago. At the time there were but twenty-three members and a church building. They now have 39 members and a new building, which is being dedicated and he receives a salary of \$1200 per year. The city has a population of 30,000. This certainly speaks well for Eldorado.

—B. F. POTTER writes under date May 28 from Solomon, Kas., that the Lord has passed through one of the worst and stormy that he had ever witnessed and that he is sure would never make more than about one-fourth of a crop, and that their potatoes had been whipped with the wind until they were nearly all blown away.

—MRS. M. C. HALLERTY writes from Western Kansas, May 1, and the prospects were never better for crops, but before he returned, which was about the middle of May, their prospects had largely failed.

—From and after June 1, 1895, we have to raise the price of our clubbing offer with the Inter Ocean, our rate with this paper having expired June 1. From June 1, 1895, the price of the Inter Ocean will be \$2.00 a year instead of \$1.50. Please bear this in mind.

—MRS. SOPHIA HALLERTY and daughter May, of Kendallville, Ind., are the guests of Mrs. R. H. Rosser's sister, Mrs. M. Ruhl, at Rosser's, near E. M. Mrs. Ruhl are the guests at E. M. McDonald and family this week.

Trustee's Sale.

Whereas, Henry Moller and Francis Moller his wife, by their deed of trust, dated the 10th day of May, 1894, to the undersigned, recorder's office of Holt county, Missouri, in and to the said deed of trust, the said Henry Moller and Francis Moller are named as trustees, the following described real estate, to-wit: Lots one and two of block twenty and State of Missouri, in Holt County of Holt and State of Missouri, to block twenty.
